

DELTA PROTECTION COMMISSION MANAGEMENT PLAN UPDATE 2008 – PLANNING ADVISORY TEAM

December 15, 2008 Meeting Summary

1. Welcome and Introductions

Linda Fiack, Delta Protection Commission (DPC), and Dorian Fougères, Center for Collaborative Policy, CSUS, welcomed Management Plan Update Planning Advisory Team (PAT) members to their seventh meeting. The objective of the meeting was to complete its review preliminary draft text provided by DPC staff and the consulting team for consistency with prior guidance from the PAT.

Given the limited time, Dorian explained that any concerns that could not be fully addressed during the meeting would be documented and incorporated into the materials provided to the Commission at its January 22, 2009, meeting.

2. Review of Preliminary Draft Text

The PAT first completed its review of outstanding policies from the Land Use element and the Recreation and Access element. Some remaining concerns about the Land Use element were noted.

The Team next reviewed the Natural Resources, Utilities and Infrastructure, Agriculture, and Water elements. All concerns were addressed. This completes the PAT's work. Members asked, however, for an eighth meeting following the Public Review workshops of a Draft Plan in February.

3. Next Steps – Public Input Workshops on January 7 and 8, 2009

Following revisions based on this meeting, the full preliminary draft text will then be presented to the public at two workshops in the Delta. The Team and members of the public helped strategize about who needed to be informed of the workshops, how this would best be accomplished, who could help with this, and by what time outreach steps would be completed.

The first workshop will be held at the Jean Harvie Community Center in Walnut Grove on January 7, 2008, and the second at the San Joaquin Farm Bureau Federation on January 8, 2008, each workshop running from 5:30 PM to 9 PM. The purpose of the workshops is for the DPC to receive public input on the preliminary draft text; ideas generated at the public sessions will be incorporated into the materials provided to the Commission at its January 22, 2009, meeting.
